It was an exciting year for Canyon State in winning the American League Blue Division. We started out a little slow going 2-1-2, but the remainder of the season we were 8-2 finishing 10-3-2. This was probably one of the wettest fall seasons we had with five rain outs. The team never conceded a game. Many times we would be behind going into the 6th or 7th inning and pulling the game out with some timely hitting and great base running. Eight games were decided by two runs or less. Thanks to all the players and look forward to the winter season beginning in February.
