A wonderful fall session for the Liberty Buick Bashers. We started out slow, going 3-5 in our first 8 games. Two of the losses were ties and we lost by the half run rule, being home team both times. We then won 8 of our last 9 games to tie an excellent Swing Orthopedics team for first place in the Red League. Our league was very even and competitive all year, as the winning teams were not determined to our very last games. It pretty much seemed like any team could beat any team on any given day. That is what makes it so much fun. We were fairly fortunate in that we required very few subs during the season, and if we were missing one player, we played with the remaining 10 guys. We would like to thank our commissioners, Don Ranieri and John Boland, assistant Paul Becker and league President, Tom Ranalls for all your hard work during the year. Congratulations to all the teams in our league for a great season, and for the wonderful sportsmanship displayed each and every game. It was a pleasure playing with and against all 66 players in our league. The camaraderie and fellowship makes it a truly wonderful experience for all. At the end of the day, we are all winners. Looking forward to another great time in our winter session. Thanks Guys.
